Authorisation to use and apply, for non-commercial usage:

LION

at the _____ (insert association name)

The open source type code LION is developed at the Swiss Plasma Center, Ecole Polytechnique Fédérale de Lausanne (SPC/EPFL), Switzerland.

LION calculates the wave-particle interaction for waves in the Ion Cyclotron Range of Frequencies.

The undersigned has received a copy of LION under the conditions that:

- 1.- The code does not change its name even if modified.
- 2.- Modifications of the code that are developed are made available to the SPC.
- 3.- Results produced with the original or the modified versions of LION should appropriately reference the original publications:

L. Villard, K. Appert, R. Gruber, J. Vaclavik, Global waves in cold plasmas, Comput. Phys. Reports 4, 95 (1986)
[https://doi.org/10.1016/0167-7977\(86\)90027-4](https://doi.org/10.1016/0167-7977(86)90027-4)

- 4.- LION nor their progeny may be transferred or made available to other research groups without the written authorisation from the SPC.
