SAWTEETH

at the ________________________________________________ (insert association name)

The open source type tools SAWTEETH are developed at the Swiss Plasma Center, Ecole Polytechnique Fédérale de Lausanne (SPC/EPFL), Switzerland.

SAWTEETH compute the conditions for triggering a sawtooth crash and its effects on kinetic profiles, typically within a transport simulation.

The undersigned has received a copy of SAWTEETH under the conditions that:

1.- The code does not change its name even if modified.

2.- Modifications of the code that are developed are made available to the SPC.

3.- Results produced with the original or the modified versions of SAWTEETH should appropriately reference the original publications:
   a) Until a proper description of the code is published, refer to the latest paper using it:
   b) And add:
      A. Merle and O. Sauter, private communication (as main authors)

4.- SAWTEETH nor their progeny may be transferred or made available to other research groups without the written authorisation from the SPC.
